Office Action Summary

The election of species requirement over Z is withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34, 37 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 98/29580 (WO '580).

WO '580 (us 6436475) teaches a coating comprising xyz where  $X=HSO_4$ , Y is a straight chain organic from 2-50 carbons and Z is hydroxyl, amino, sulfhydryl or cyano. Ant-fouling is an intended use.

Claims 34, 37 rejected.

Claims 38, 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Items CI and CL on PTO form 1449, paper #4, filed 7/12/00 were lined through because they are not in English, did not have an abstract in English, were not cited in a PCT search report, nor were they cited on the specification.
